CONSERVATION LECTURES AT BRISTOL ZOO GARDENS

Autumn 2019:

BZS 2019 Lecture Series:

The wet and wonderful

Unless otherwise stated, lectures start at 6pm in Bristol Zoo Gardens' Conservation Education Centre, Guthrie Road, Bristol, Clifton BS8 3HA.

Wednesday 11th September

Can conservation, education and research save sharks from their reputation?

Olivia Edgar (Bristol Zoological Society)

Wednesday 2nd October

Fish-jellyfish interactions: The good, the bad and the overlooked.

Donal Griffin (Queen's University Belfast / Wildlife Trusts)

Wednesday 6th November

Carparks, Heavy Metal & Ice Ages: how historical events have shaped diversity with brown trout.

Dr Andrew King (University of Exeter)

The Conservation Education Centre (on the zoo grounds) is accessible via a separate entrance on Guthrie Road, Clifton, from 5.45pm. Conservation Lectures are free of charge.
